THE EXPORTER'S GUIDE

SUMMARY

PREAMBLE

This exporter's guide summarizes the process of exporting non oil goods, starting from their loading at the exporter's stores, all the way to the country of their final destination.

This step-by-step guide aims to familiarize exporters with customs export formalities and facilitations targeting the reduction of time and cost.

You will find a more detailed electronic version of this guide with references to the related regulation on our website: www.douane.gov.dz

It will be updated each time the regulation governing non-oil goods' export is modified.
